

who we are?

FSM GROUP is a family owned manufacturing company, specialized in woven garments.

It started in 1979 as a small shirts manufacturing company with fewer than two dozen workers, growing steadily over the past decades.

Today FSM are a solid group with production units in Portugal and Morocco.

where we are?

We have our head office in Portugal (Lousada, 20 minutes from Porto) and several production units in Portugal and Morocco to guarantee a faster and more efficient way to respond the needs of our costumers.

what we do?

FSM GROUP is specialized in woven garments and works with the top world fashion players covering all the ranges:

Woman
Men
Children

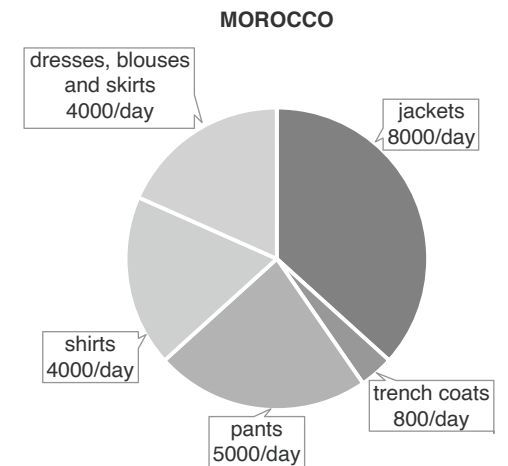

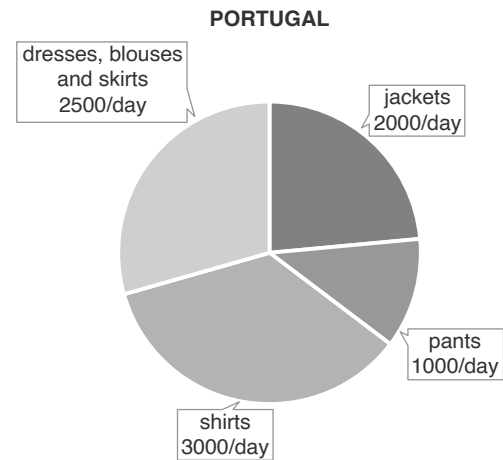

and all types of woven products:

Outerwear
Jackets
Blazers
Shirts
Blouses
Dresses
Pants
Skirts

We have different production units specialized on each type of garments. 60% of our production is made in our own factories (in Portugal or Morocco) and the other 40% is managed under CMT terms with subcontracted business partners.

how we do it?

Over the past years we have continuously improved the organizational framework of our company.

Today we have a well organized team working in our head office articulating the various specialized departments and all our units to respond the needs of our costumers.

working with different market segments...

- the **premium market** with delicate fabrics, exquisite making and detailed garments;
- the **fast fashion**, in which the requirement of lead times, without neglecting the quality, has required us to develop efficient processes that allow us enough flexibility to meet the demands of this market.

FSM

Better project

#fsmbetterproject

and with sustainability...

'FSM better project' is a project that aims to transform procedures at FSM to make them more sustainable.

A set of actions that can be performed in offices, production, buildings or customer support.

We know that many small and large changes are needed.

We know we can all, really, make a difference.

We know it is one day at a time.

But we also know that, we have to make this effort because resources are limited and we want to leave a world to our children.

some of our actions...

- . photovoltaic energy system
- . sustainable sourcing showroom – fabrics, trimmings and garments
- . office and industrial waste separation
- . reusing dead stocks in social support projects
- . social and environmental certifications

A low-angle photograph looking up at a tree with dense foliage. The leaves are a mix of green and yellow, suggesting autumn. The sun is shining brightly through the leaves, creating a lens flare effect. The sky is a clear, pale blue with some light clouds visible at the bottom right.

**THE FUTURE IS COMING,
IT'S JUST GETTING DRESSED!**
